Tools

OSX, iOS, Windows, Android, Photoshop, Illustrator, InDesign, HTML, CSS, PHP Storm, Smart GIT, Lucid Charts, Bugzilla, YouTrack, Cornerstone, WordPress, Google Drive

Experience

Nov. 2009 - Nov. 2013 Sazze, Inc., Santa Clara, CA

UX/UI Designer / Project Manager

flowcharts, wireframes, HCI, SEO, project management, prototyping, mock-ups, logo creation, e-Commerce, CSS, HTML, OSX, iOS, Android

- Design websites, as well as correlating apps and materials. Designed and helped build dealspl.us, a coupon and deals site with over six million unique users a month. Created ShopLately.com and corresponding marketplace featuring over thirty merchants and thousands of products. Helped architect Blackfriday.fm, a website ranked #1 Black Friday 2012 by Google search.
- Create mobile websites and native applications. Designed Pockety and Blackfriday.fm native apps for both iPhone and Android. Designed and helped build ShopLately mobile e-Commerce site.
- Develop and establish brand identities, create logos and design relevant materials for all company websites, including dealspl.us, Blackfriday.fm, ShopLately, and Pockety.
- Translate project ideas into flowcharts using Lucid Design, construct wireframes and design flats using Photoshop and Illustrator. Build webpages using HTML and CSS. Support the developers by providing them with images, testing for quality assurance and tracking bugs.

2007 - 2008 Helium, Inc., Andover, MA

UI/UX, Graphic Designer

flowcharts, wireframes, prototyping, mock-ups, logo creation, Adobe, OSX, iOS

- Designed the Helium Marketplace, a site that provides a platform where journalists and bloggers could share niche titles and publishers can respond to their own articles. Created flowcharts and over a hundred wireframes then converted them into Photoshop flats.
- Collaborated with top level managers to develop ideas then researched and brainstormed concepts before creating new features and products such as the 'Helium Content Source', which supplied content to media powerhouses and e-Commerce companies.
- Executed design changes on Helium.com, including minor tweaks and full page redesigns, to continuously improve site appearance. Regularly changed CSS to make the website more cohesive and pixel perfect.
